PROFESSIONAL SUMMARY

Results-driven **Full Stack Developer** and aspiring **AI Engineer** with demonstrated expertise in modern web technologies — HTML/ CSS, Tailwind CSS, JavaScript, TypeScript, React.js, and Next.js. Skilled in **Python** and **Prompt Engineering**, designing intelligent AI workflows and integrating AI capabilities into web applications. Experienced educator and curriculum designer with a passion for mentoring the next generation of developers. Currently deepening expertise in **Artificial Intelligence engineering** and **AWS Cloud Services**. Committed to building high-performance, user-centric digital solutions that solve real-world problems.

WORK EXPERIENCE

Frontend Development Teacher

2024 - Present

Tech Force Pakistan

- Designed and delivered a comprehensive frontend development curriculum covering HTML, CSS, JavaScript, and responsive design principles.
- Mentored 20+ students through hands-on, project-based modules focused on real-world application development.
- Assessed student progress through code reviews and guided capstone projects, resulting in improved learner outcomes.

REFERENCES

Available upon request.

- ▶ Fostered an engaging learning environment that encouraged independent problem-solving and collaboration.

Customer Service Officer (CSO) 2008 - 2017
K-Electric Limited

- ▶ Managed end-to-end customer relations within the New Connection Department, handling high-volume inquiries with professionalism.
- ▶ Resolved complex customer grievances with consistently high satisfaction rates and minimal escalation.
- ▶ Maintained accurate records and processed service requests in compliance with internal SOPs.
- ▶ Collaborated cross-functionally with field and operations teams to streamline service delivery workflows.
